Resource Description

Exposure: M

weather or climate related pathway by which climate change affects health

Temperature

Temperature: Extreme Heat

resource focuses on specific type of geography

None or Unspecified

Geographic Location: M

resource focuses on specific location

Non-United States

Non-United States: Europe

European Region/Country: European Country

Other European Country: France

Health Impact: M

specification of health effect or disease related to climate change exposure

Other Health Impact

Other Health Impact: Adverse Drug Reactions

Resource Type: **☑**

format or standard characteristic of resource

Policy/Opinion
